

Sprint Planning Meeting

PA2

Group ID: Group 11

Project Name: Wordhaven Books

Prepared by: Trương Tấn Phong

Date: 17/11/2023

Time: 20:00 PM

1. Identify and Prioritize Tasks/User Stories:

- Our team focuses on completing front-end programming first, then moving on to back-end programming. Therefore, the top goal in the next sprint is to complete all the Admin and Customer interfaces.
- The database has been designed, but the data rows are still blank. The next necessary task is to enter data to serve the connection and demo process.
- If the work is completed before the deadline, the member will learn how to program the back-end to prepare for the task in the next sprint.

2. Assign Tasks to Team Members:
