1. Main screen

Figure 1: Home page

An Online Bookstore System	Version: <1.0>
Software Architecture Document	Date: <16/12/23>
<document identifier>	

- The screen is the home page of the website. The purpose of the homepage is to provide an overview of the website and its content, which includes books and categories of the books. Users can use the search bar to look for products, the account icon to perform operations related to the user account, the cart icon on the home page to go to the shopping cart, and the chat icon to communicate with the admin.

2. Scenario 1: Register

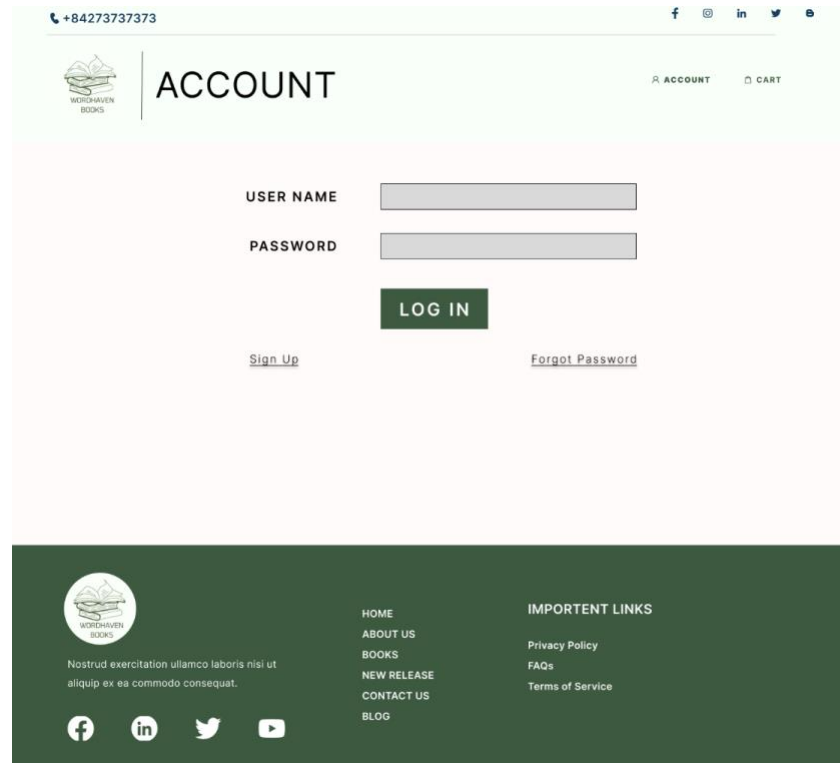

The screenshot shows a web page titled 'ACCOUNT' for 'WORTHAVEN BOOKS'. The page is divided into two main sections: 'ACCOUNT INFORMATION' and 'CUSTOMER INFORMATION'. The 'ACCOUNT INFORMATION' section includes fields for 'USER NAME*', 'PASSWORD*', and 'CONFIRM PASSWORD*'. The 'CUSTOMER INFORMATION' section includes fields for 'NAME*', 'EMAIL*', 'NUMBER PHONE*', 'GENDER' (with radio buttons for 'male', 'female', and 'other'), 'DAY OF BIRTH' (with dropdown menus for day, month, and year), and 'ADDRESS*'. A 'SAVE' button is located below the 'ADDRESS*' field. The footer of the page contains the 'WORTHAVEN BOOKS' logo, a placeholder text 'Nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.', social media icons for Facebook, LinkedIn, Twitter, and YouTube, and a list of 'IMPORTANT LINKS' including 'HOME', 'ABOUT US', 'BOOKS', 'NEW RELEASE', 'CONTACT US', 'BLOG', 'Privacy Policy', 'FAQs', and 'Terms of Service'.

Figure 2: Create Account

- The screen is the registration page of the website for customers. The purpose of the screen is to inform customers to register accounts for them. Customers can enter some information and use the registration button to create accounts.

An Online Bookstore System	Version: <1.0>
Software Architecture Document	Date: <16/12/23>
<document identifier>	

3. Scenario 2: Log in

The screenshot displays the 'ACCOUNT' login page for 'WORDHAIVEN BOOKS'. At the top, there is a header with a phone number '+84273737373' and social media icons for Facebook, Instagram, LinkedIn, Twitter, and YouTube. Below the header, the page title 'ACCOUNT' is prominently displayed. To the right of the title are links for 'ACCOUNT' and 'CART'. The main content area is a light pink color and contains a login form with two input fields: 'USER NAME' and 'PASSWORD'. Below these fields is a dark green 'LOG IN' button. Underneath the button are two links: 'Sign Up' and 'Forgot Password'. The footer is a dark green bar containing a circular logo with a book icon, a placeholder text 'Nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.', social media icons for Facebook, LinkedIn, Twitter, and YouTube, a list of links (HOME, ABOUT US, BOOKS, NEW RELEASE, CONTACT US, BLOG), and a section titled 'IMPORTANT LINKS' with links for 'Privacy Policy', 'FAQs', and 'Terms of Service'.

Figure 3: Log in

- The screen is the Login page of the website. The purpose of the screen is to require users to log in to their accounts to proceed with some operations. Users can enter their username and password to log in, press 'Sign Up' to register an account, or press 'Forgot Password' to reset the password.

An Online Bookstore System	Version: <1.0>

4. Scenario 3: Search Product

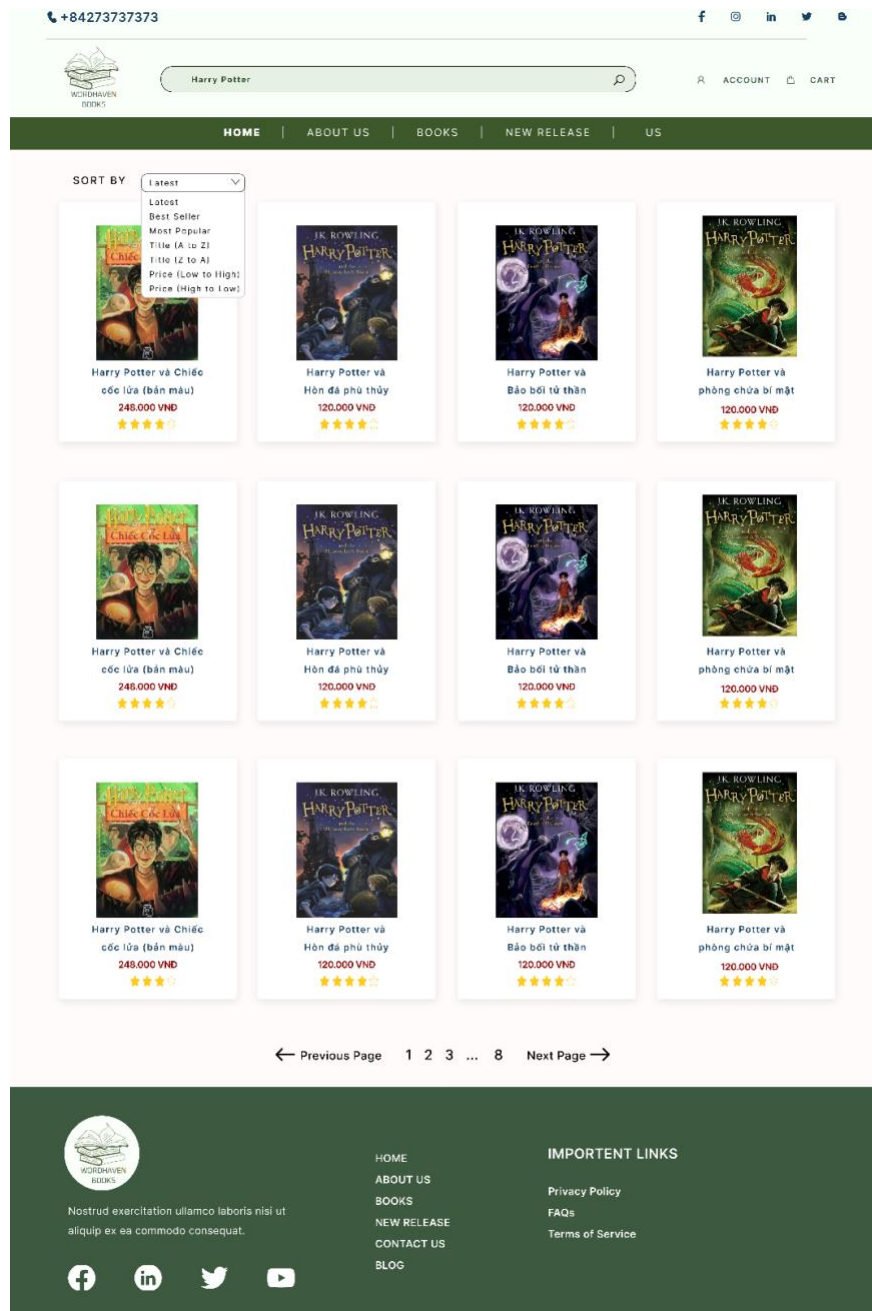

Figure 4: Result of Search Product

- The above screen of the website is when users look for books by entering a search bar. The purpose of the screen is to show the book list based on the keyword which users entered. Users can view the book list according to the different sort methods that users would like to choose. Besides, users can also choose the 'Previous Page' button and the 'Next Page' button to view more books to look for the best-desired book and can choose any book to view detailed information.

An Online Bookstore System	Version: <1.0>
Software Architecture Document	Date: <16/12/23>
<document identifier>	

Figure 5: Item Page

- The above screen of the website is when users choose the specific book to view detailed information. The purpose of the screen is to show more information about the book and the rating of the book. Users can scroll up or down to see feedback left by other users. Users also can choose ‘+’ or ‘-’ to increase or decrease quantities, the ‘BUY NOW’ button to buy books, and the ‘ADD TO CART’ button to add the book to their shopping cart.

9. Scenario 8: Revenue statistics

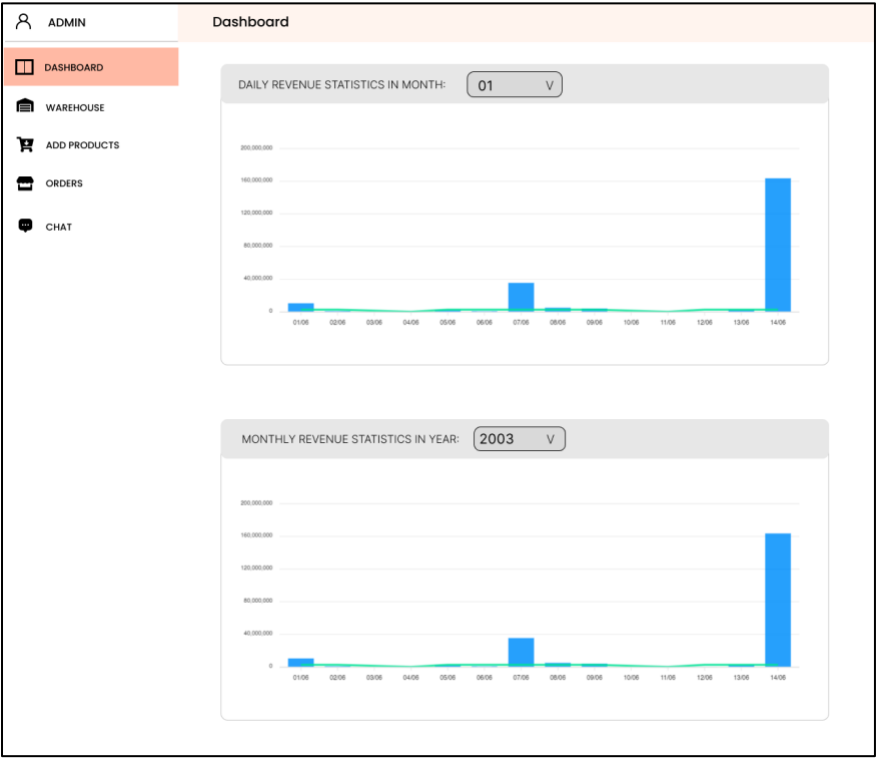

Figure 11: Dashboard

- The above screen of the website is the admin’s dashboard. The purpose of the screen is to show the revenue statistics of the bookstore. The admin can view the revenue charts based on choosing a specific timeline.

An Online Bookstore System	Version: <1.0>
Software Architecture Document	Date: <16/12/23>
<document identifier>	

10.Scenario 9: Add Product

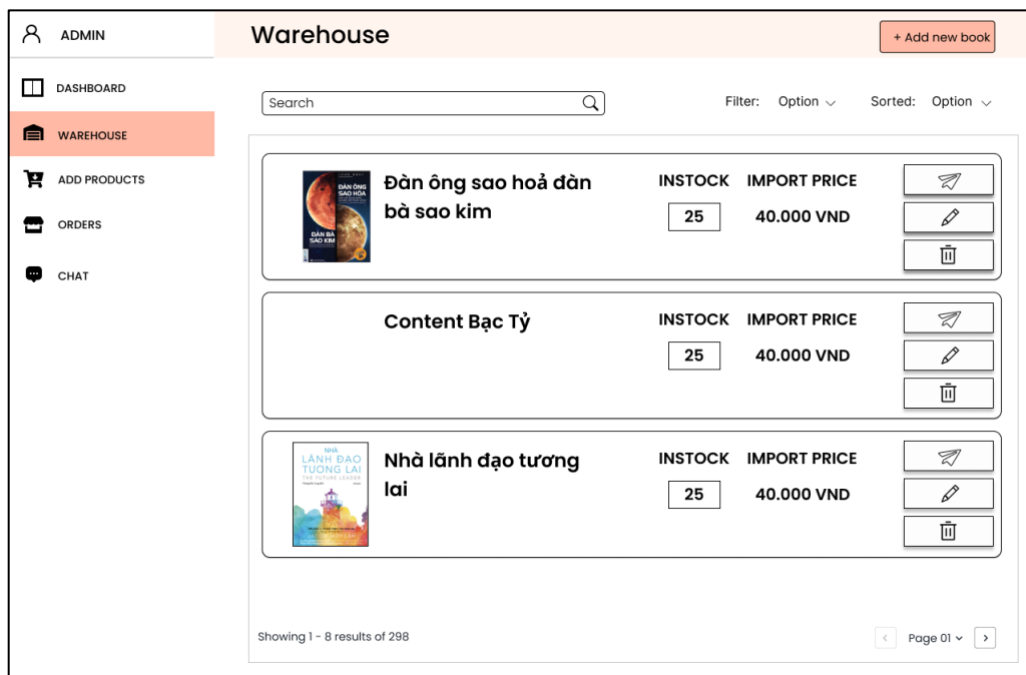

Figure 12: Warehouse

- The above screen of the website is the warehouse of the bookstore. The purpose of the screen is to show the book list in the warehouse. The admin can view the book list based on they choose the category filter and the sort of method. Besides, the admin can choose buttons to add a new book to the warehouse, post book, revise the detailed book information, or delete books from the warehouse.

An Online Bookstore System	Version: <1.0>
Software Architecture Document	Date: <16/12/23>
<document identifier>	

The screenshot shows an admin dashboard with a sidebar on the left containing links to ADMIN, DASHBOARD, WAREHOUSE, ADD PRODUCTS (highlighted), ORDERS, and CHAT. The main content area is titled 'Add Product' and contains the following form fields:

- BOOK NAME:
- AUTHOR:
- CATEGORY: - PUBLISHING COMPANY:
- PUBLISHING YEAR:
- IMPORT PRICE:
- QUANTITIES:
- DESCRIPTION:
- Image:

At the bottom of the form is a red **PUBLISH** button.

Figure 13: Add Product

- The above screen is when the admin presses the ‘Add new book’ button to add a new book to the warehouse. The admin can enter detailed information for the book and press the button to publish.

An Online Bookstore System	Version: <1.0>
Software Architecture Document	Date: <16/12/23>
<document identifier>	

11.Scenario 10: Order Management

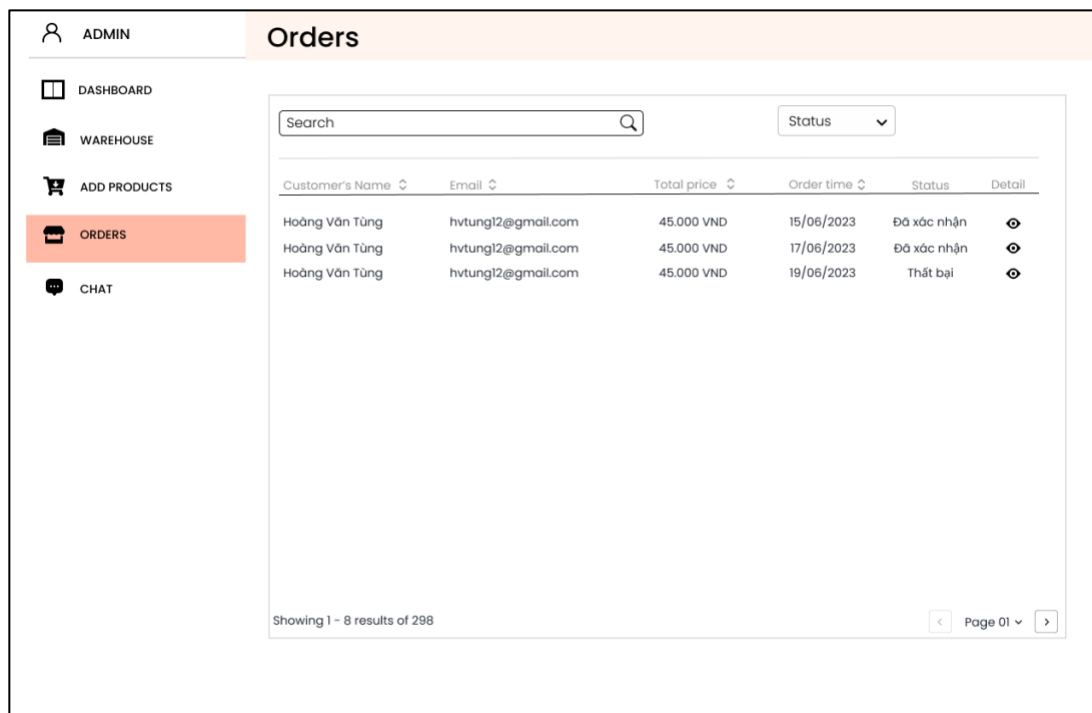

Figure 14: Order Management

- The above screen of the website is the order list management of the system. The purpose of the screen is to show the order list. The admin can choose any order to view the detailed information.

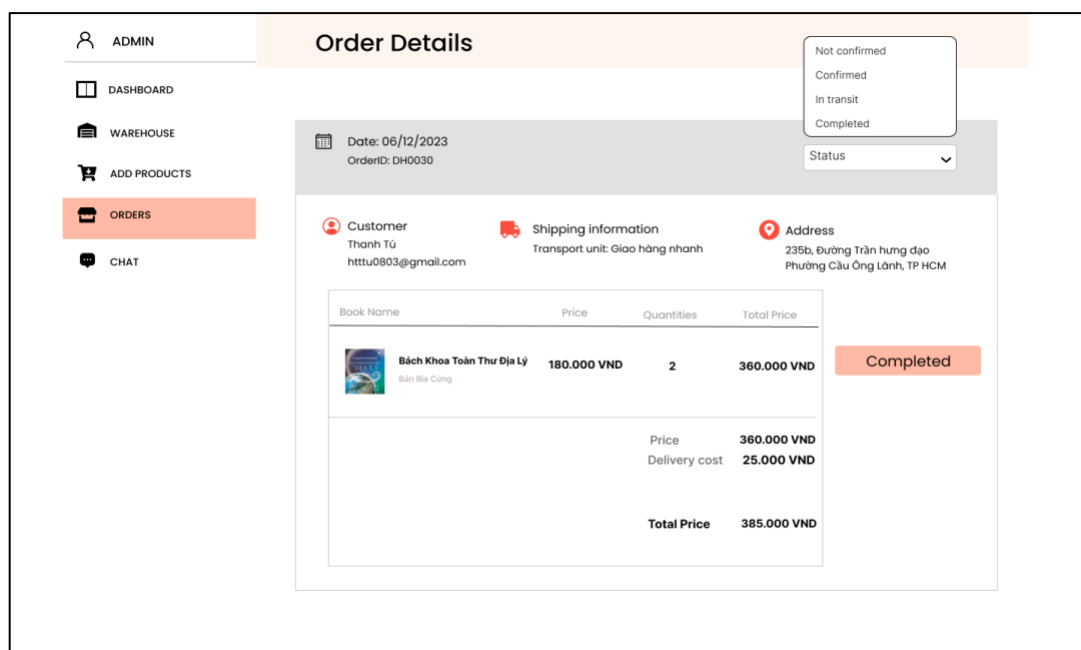

Figure 15: Order Detail

An Online Bookstore System	Version: <1.0>
Software Architecture Document	Date: <16/12/23>
<document identifier>	

- The above screen of the website is the detailed information of a specific order. The purpose of the screen is to allow the admin to manage the status of each order. The admin can choose status to mark for the order.

12.Scenario 11: Chatbox

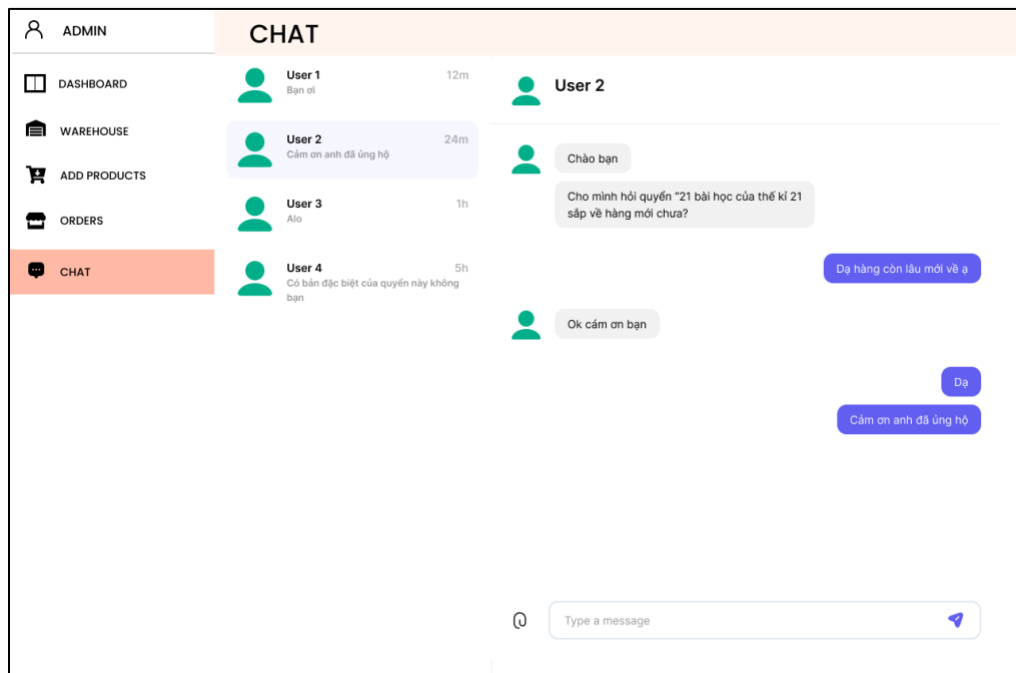

Figure 16: Chat Box

- The purpose of the above screen is to show the conversations of the admin and the customers. The admin can communicate with the customers to give consultants.
